

Origami Bookmark

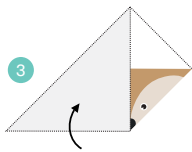

Follow the origami directions to make this adorable 'Perry the Porcupine' bookmark to peek over the corner of your page.

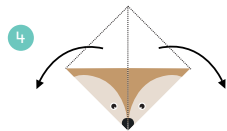

1 Cut out square body and spiked hair and fold the square in half.

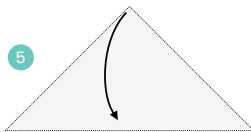

2 Flip over your triangle and fold the bottom corner to the middle top.

3 Repeat this fold on the other side.

4 Fold the two corners back down again.

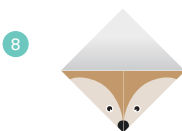

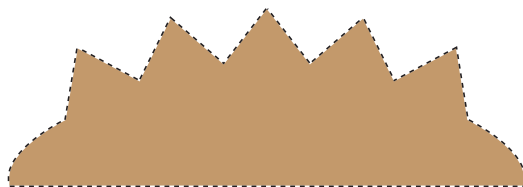

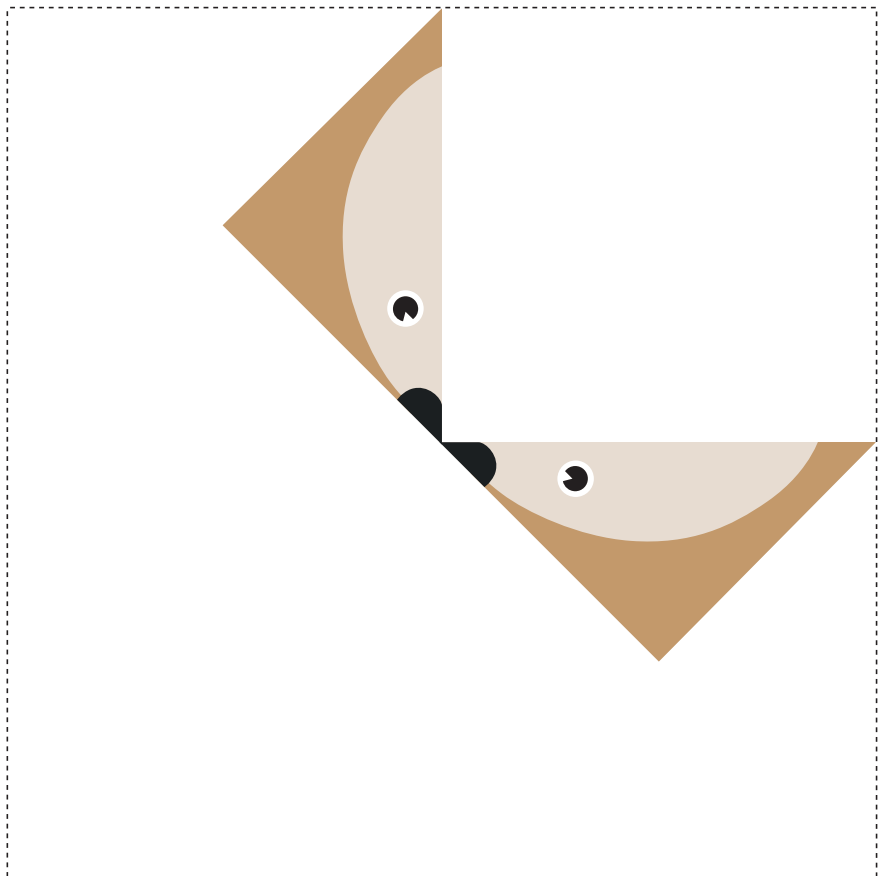

5 Fold the top sheet of the triangle to the centre.

6 Make a firm crease.

7 Fold the left side back up and tuck the triangle underneath the face to make a pocket.

8 Do the same on the other side.

9 Glue the hair to the inside and you're ready to go!
